The scope topics identified in these documents are in addition to those topics set out in Raceway's January 23, 2013 Draft Scope document.

We trust you will find the enclosed materials helpful in preparing a final scope for Town review and a DEIS that identifies potential significant adverse environmental impacts and practicable means to avoid or mitigate those impacts and that is otherwise complete and adequate for public review and comment.

If you have any question regarding the Town's view on any particular topic, please give me a call.

Very truly yours,

GILBERTI STINZIANO HEINTZ & SMITH, P.C.
